"PEACE OF MIND FROM THE TOP DOWN"

Dr. Ward and staff,

Thank you so much for your kindness and professionalism during the whole process of extracting Joel's tooth. You made a difficult situation so much easier! I also was very surprised and impressed by your personal

follow-up call shortly after. I'm sorry I missed it! He is doing very well and his front tooth is already poking through. ☺ I will highly recommend your practice to anyone I come across that may need your services.

Thanks again!

Corne Mast

I am very pleased at the service I received at your Boyertown office. I was a bit nervous when I went in for the surgery but Dr Smith and the staff members that attended made me feel relaxed. I also liked that he followed up later in the day to make sure I was feeling and doing OK and to see if I had any questions. I would definitely recommend Dr Smith and Pottstown Oral Surgery to anyone that needs this type of service. I will also tell my dentist, Dr Monica Schick, that I am extremely happy with her recommendation.

Thank you

Barbara McCaul

Thanks Dr. Smith for making my experience of getting my tooth extracted (on Thursday July 9th) a relatively pleasant one. Thanks also to the entire staff at the Boyertown location for doing your job so efficiently and being so nice. What a great organization...I have posted a 5-star review on your website!
